## Walking dead cast season 9 luke

Like herds of zombies, known as walkers in the show, that have literally consumed humanity in its entirety in the AMC apocalyptic drama, The Walking Dead doesn't seem to be dying anytime soon. After 10 years of fighting zombies, trying to survive against rival groups, and mourning the loss of humanity as a whole, the story of our favorite group of survivors is far from its last chapter. The show's tenth season will premiere on AMC soon and the series has recently been renewed for its eleventh season. Sather yourself, Walking Dead fans, because Season 10 looks like it's going to be a wild ride. Lauren Cohan as Maggie | AMC Here's everything you need to know before you watch Walking Dead Season 10. What happened in the 9th century? In The Walking Dead Season 9, things quickly warm up for our group of apocalypse survivors. The season begins after Negan is defeated and imprisoned by Rick's group. Meanwhile, the Saviors are trying to adapt without anyone rebelling against Rick's group. Maggie took over hilltop, but the former sanctuary leader, Gregory, is trying to have Maggie murdered. As punishment, Maggie executes Gregory. In season 9, we met whisperers, a group of people who disguise themselves by wearing the skin of pedestrians. The group is led by a woman named Alpha. In the season finale, Alpha and her followers commit a massive defeat to all remaining in Alexandria, including Enid, Tara, and Carol's adopted son, Henry. Much of the conflict of the season revolves around the group's decision on what to do with Negan. Rick, who wants to honor his son's last wish for peace, wants to keep Negan in jail, while Maggie and Daryl want to kill Negan. Maggie tries to execute Negan herself, but her plan is thwarted by Rick, who is severely damaged in his efforts to stop her. To save the group from an approaching herd of walkers, Rick blows up a dynamite bridge, leading the group to believe he's dead. However, Rick was actually rescued by Jadis, who reveals her real name is Anne. Rick is taken by helicopter to an unknown location. Six years lost, and Michonne is now raising a child named R.J. Grimes, named after his father. Who will return for season 10 of The Walking Dead? Many of the original members of The Walking Dead were either killed or simply moved on to other projects. Andrew Lincoln, who plays Rick Grimes, recently left the show but will return in the series' spin-off film trilogy. Danai Gurira will be back to repeat her role as Michonne, but this will be her last season. The Walking Dead producers hinted that it may not be the last time we see Michonne, however, because she could make an appearance in the upcoming film trilogy. I would just like to say that it was one of the purest joys of my life to play this role, and to be among these people, and those who are not here right now, and among all of you," she said Comic-Con, I'm very, very grateful for the experience I've had in ways I can't express right now. I will say that my heart in no way, shape or form goes away. Norman Reedus, who plays Daryl Dixon, and Melissa McBride, who plays Carol Peletier, will return and are the only remaining cast members who have been part of the show since its first season. Jeffrey Dean Morgan, Christian Serratos, Josh McDermitt and Seth Gilliam will also return to their roles. What is the plot of 'The Walking Dead' Season 10? Aside from a short synopsis released by AMC, not many details have been released regarding the plot of season 10, but one thing is certain: war is on the horizon. When the season begins, it will be spring, and the characters are still coming to terms with the terrible act of violence committed by The Whisperers, a threat that is unlike anything the group has faced before. AMC's The Walking Dead will premiere on October 6, 2019. The seventh premiere of The Walking Dead was undoubtedly one of the most innumerable episodes in the series' history. Controversial, polarizing and explosively violent, it set the tone for what would prove to be a relatively uneven first half for AMC's most popular show. With the series due to return in February, the Walking Dead creators have always been pretty tight-lipped in terms of what we can expect in the future. But we were lucky enough to pick up some advice on what the second half of Season 7 would look like. [Update, 2/3/17: Added trailer for Season 7 mid-season premiere, above.] Negan Won't Die Negan Walking Dead's | AMC Without a doubt, Negan has been the dominant force so far in season 7. Although he has appeared in only a few episodes, his ruthlessness has cast a decidedly different tone throughout the series. So it shouldn't come as a surprise to know that we can expect to see him a little bit more for the rest of the season. AMC recently announced that Jeffrey Dean Morgan, who plays the brutal leader of the Saviors, will return to The Walking Dead in season 8. So anyone hoping for a new big bad one would bite the dust sometime soon should adjust their expectations accordingly. We don't know how much longer Negan will take control of Daryl, Rick, Hilltop, and the rest of them – but we do know that almost everyone who has played a major role this season is trying to bring him down. Another enemy could be on the horizon of the Walking Dead | AMC It's getting crowded on The Walking Dead these days. With groups stationed in Alexandria, Hilltop, Kingdom, Sanctuary, and now Oceanside, there are plenty of people to watch. From the looks of it, we'll meet at least one more group before season seven ends. And I'm sure they'll all be all over it. The whisperers are another group of survivors of Robert Kirkman's comics, led coldly and calculatingly and calculatingly by the alpha and her right-hand man Beta. Z protective equipment (zombie skin!) on their penchant for decapitation of their enemies, they've developed some gruesome and unorthodox methods to stay alive in the zombie apocalypse. We don't have a fixed date to expect whisperers to show up. But the promotional material for season 7 indicated that this is all, but a certain bet we will meet them soon. It will have a much different vibe to The Walking Dead's Rick Grimes | AMC If you felt like The Walking Dead's seventh season is depressing, you're not alone. Many fans have complained that the series has become too downer, and that could be one of the reasons why the series saw its ratings take a pretty big dive. But don't worry - the showrunner of the series, Scott Gimple, promised that the second half of season 7 would have a very different vibe. In an interview with ComicBook.com said the first part of the season would end with a different note before it began. While it's too early to know exactly what he means, it's safe to assume that Rick, Maggie, Ezekiel, and the rest of the character eventually begin to fight negan's repressive regime. And this action itself could inject a series with some much-needed energy. War Approaches Rick Grimes (Andrew Lincoln), Michonne (Danai Gurira), Aaron (Ross Marquand) and Tara Chambler (Alanna Masterson) in Episode 9 | Photo: Gene Page/AMC Thanks to the official synopsis and some new images released by AMC, we now have a better idea of what to expect in the second half of season seven. One of the newly released images can be seen above: the rest can be viewed here. Here's a synopsis: The first half of Season 7 saw Rick (Andrew Lincoln) and a group of broken Negan (Jeffrey Dean Morgan) forced to fall under his will and brutally convinced to live by his rules. The second half of the season will focus on preparing for war and gathering supplies and numbers to bring negan down once and for all. Rick's group will find out again that the world isn't what they thought it was. It's much bigger than anything they've seen so far. Even if they have a unique purpose – to defeat Negan – it will not be easy. More importantly, victory will require more than Alexandria. They need kingdom numbers and Hilltop, but like Rick felt, Ezekiel (Khary Payton) and Gregory (Xander Berkeley) don't want bloodshed. Convincing them otherwise will take more than speeches. The lengths Rick and the group will have to go in order to find weapons, food and new fighters is nothing short of remarkable. We'll meet new survivors in incredible places. Let's see how Rick and the group are tested in a way we've never seen before. We'll see betrayal from people we trust. Rick is confident as he will see his band and many other bands along with the common goal of taking down Negan. But no planning will prepare the group for a tot all-out war with Negan and his army. New Survivor Turns Out Rick Grimes (Andrew Lincoln) Looks at Another Survivor in The Walking Dead AMC | Gene Page/AMC via EW As mentioned in the synopsis, our favorite band of zombie apocalypse survivors will meet new survivors in incredible places when Season 7 continues. AMC may have teased one of those new survivors in an image exclusively obtained by EW. As can be seen above, the picture appears to show a woman from behind talking to Rick. It is not known who this character is at this point, but it could be a member of Oceanside, the all-female community that Tara met in the first half of season 7. Stay tuned for more information as it appears! The Walking Dead will return on February 12, 2017.
